

# 7 safe summer driving tips and tricks

Nothing says summer like a road trip. Make sure your journey is safe and comfortable.

**Apply sunscreen  
before getting behind  
the wheel.**

You can also use a towel to cover your driving arm.

**Keep water bottles  
within easy access  
to stay hydrated –**

it'll also help you stay alert.

**Protect passengers  
from rays with side  
window shades.**

Plus, keep the car cool with a windscreen shade during pit stops.

**Take a break for at  
least 15 minutes  
every two hours**

(sooner if you're feeling tired).

**After hopping out  
of the car,**

plug in your seat belt to avoid the metal part heating up.

**Maintain a clean  
windscreen**

to prevent the sunlight diffracting and obscuring your vision.
